### We offer

Do you want to help shape the future of agriculture and make your mark on sustainable food production? We develop intelligent sprayer solutions that not only make life easier for farmers but also make a difference for the environment. In reality, this means that we try to go beyond state-of-the-art when we design machines that minimize the use of water and chemicals – machines that control weeds, pests and diseases one plant at a time. Through care, innovation, and excellence, we expect to see precision farming as the solution for the future of farming. You will be based at our headquarters in Nr. Alslev, where you will join about 400 other amazing people. We believe in each other, our customers and farming for a sustainable future.
